The strength of the Gould stocks is said to be due to the completion of details relating to the organization of a holding company, which will be similar in purpose and plan to the Northern Securities Company. This plan is known to have interested George Gould for some time, but its establishment has been deferred because of the litigation pending which may result in annulling the charter of the Northern Securities Company. It would seem that none of the legal objections made to the validity of that charter could be sustained in an attack upon the Gould holding company, for the reason that the Gould system is made up of roads that do not parallel each other and are therefore non-competing.

morning was traced to Gould brokers. They were also instrumental in keeping Manhattan strong. The directors of this company, it is said, will today au-thorize the issue of \$8,000,000 of the \$12,000,000 new stock, and that stock-holders will be given the right to subscribe for it at par to the extent of 15 per cent of their holdings. This would make the rights worth about \$7.50 on a share, and insiders predict the stock will sell higher than present prices even after the rights come off. One of the stocks which is acting re-

markably well, and is worthy of con-sideration by any investor, is Balti-more and Ohio. It is selling between 101 and 102, and the sales indicate that stock is being accumulated. A director of the Chicago, Rock Island

INADEQUATELY POLICED.

A letter from E. P. Ellis, secretary of the Brookland Citizens' Association, has been received by the District Commissioners. The writer complains that Brookland is inadequately policed, and offers suggestions for the reserve of policemen living there. Police Lieutenant Kenney, in a report, details the impossibilities of any better arrangements being made at present. While recognizing the justice of the claim, the Commissioners will inform the association that until more men are allowed for the force there can be no remedy.
